To Whom It May Concern:

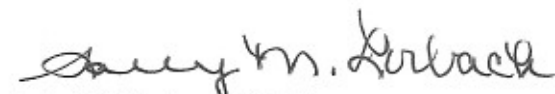

Please accept this letter as an endorsement for Ms. Bernell L. King and Visions International (VI). As owner of VI, Ms. King provides training and coaching to assist organizations to develop cultural dimensions that help them see and pursue different types of opportunities in foreign markets. She provides the intercultural training necessary to help shape the way managers and employees see their markets, customers, and competition.

Additionally, Ms. King provides intercultural training workshops in an academic setting for Southern Wesleyan University; an International Business Management course that is part of the requirements for a Master of Management Degree. I have been associated with Ms. King and VI in this academic setting. The workshops provide students with the catalyst for forward thinking and include: the international cultural and social environment; the legal and political environment; and ethics.

Ms. King's interpersonal skills, integrity, and professional expertise in international-intercultural training help organizations and/or students in higher education work with people regardless of their differing cultures, educational or socio-economic backgrounds. She has the spirit and the work ethic to get the job done with aplomb and a smile.

I highly recommend Ms. King and her company Visions International for intercultural training, and/personal or business coaching.

Sincerely,

Sally M. Lorbach, Ph.D.
President, CEHC
